Identical programs each day, 9:30 a. m., Pacific daylight time

The 1958 Triennial Inspection of the NACA Ames Aeronautical Laboratory will be held at Moffett Field, California, in two sections on the dates shown. These dates were chosen to follow the Institute of the Aeronautical Sciences meetings to be held July 8-11, 1958, in Los Angeles.

Interested Government officials and key personnel in aeronautics will be given an opportunity to receive at first hand reports of recent progress in the field of aerodynamic and space research at the NACA Ames Laboratory and some reports on research conducted at the Langley and Lewis Laboratories of NACA. There will be demonstrations of new research facilities and techniques.

Because of the large number of guests expected to attend, it will be impracticable for NACA to arrange for air or rail transportation or hotel reservations. Rickey's Studio Inn in Palo Alto is reserving a block of rooms for those identifying themselves as NACA guests. Reservation cards are enclosed for direct mailing to Rickey's. Reservations will be held only until 4:00 p. m. unless advance deposit is made.

Special round-trip bus transportation will be provided by the NACA as follows:

From Palo Alto, California:

Depart Rickey's Studio Inn,  
4219 El Camino Real, 8:50 a. m.

From San Francisco Airport:

Depart front, lower level  
8:30 a. m.

There will be no opportunity for breakfast after boarding bus.

Lunch will be served at the Ames Laboratory.

Those traveling by private airplane or auto are requested to plan to arrive at the Laboratory Administration Building by 9:10 a. m.

Aircraft landing at Moffett Field should taxi to NACA hangars near the northwest part of the field.

Attendance is limited to guests registered in advance. Registration will be made only upon acceptance in writing of this invitation. Attendance is also limited to American citizens.

Please execute the enclosed acceptance form and mail promptly to:

DR. SMITH J. DEFRANCE, *Director*  
NACA Ames Aeronautical Laboratory  
Moffett Field, California
