SPECIAL INSTRUCTIONS AND RULES
FOR THE 2019 - 2020 DEER HUNT AT
NASA PLUM BROOK STATION, SANDUSKY, OHIO
MANAGED JOINTLY BY
THE NATIONAL AERONAUTICS AND SPACE ADMINISTRATION,
OHIO DEPARTMENT OF NATURAL RESOURCES, DIVISION OF WILDLIFE,
AND USDA/APHIS, WILDLIFE SERVICES

November 16, December 14, January 11, and February 1

The NASA Plum Brook Station Deer Hunt is open to U.S. citizens who are licensed Ohio hunters. ALL hunters will hunt in pairs so each person drawn is required to find and bring one hunting partner. Hunters under the age of 18 must be accompanied by a partner who is at least 21 years old. Failure to follow the controlled hunt rules and conditions could result in dismissal from the hunt, in addition to criminal charges pursuant to the Ohio Administrative Code 1501:31-9-01(u).

Hunters who do not possess a valid driver’s license and have obtained a driver to transport them to and from the hunt must have the driver submit a NASA Glenn Deer Hunt security application to undergo a background check in the same manner as the primary hunter and hunt partner and the driver must have a valid state of Ohio driver’s license only.

All persons, 18 or older, arriving at NASA Plum Brook Station must present a valid, government-issued photo identification in order to enter the facility. Acceptable forms of identification include valid state photo ID (driver’s license or non-driver), valid United States passport, or valid Federal Government/Military CAC or Military Retiree Id card. No other forms of identification, or non-photo identification, will be accepted. Those not possessing one of the specified forms of photo identification will not be permitted to enter NASA Plum Brook Station. There will be no exceptions.

SECURITY BACKGROUND CHECKS

PLEASE READ THESE INSTRUCTIONS CAREFULLY IN THEIR ENTIRETY AND FOLLOW THE SPECIFIC SECURITY CHECKLIST THAT APPLIES TO YOU BASED ON YOUR RESIDENCY

SUBMISSIONS RECEIVED LESS THAN ONE WEEK PRIOR TO YOUR HUNT DATE WILL RESULT IN LOSING YOUR HUNTING OPPORTUNITY

ALL hunters, both the primary and hunt partner and drivers must pass a background check. The primary hunter, hunt partner, and driver who will be dropping off and picking up the hunter and partner at Hunt Control are ALL required to complete and submit a NASA Glenn Deer Hunt security application (page 12 of this packet) to the NASA Office of Protective Services. Those hunters and drivers who fail to complete and pass the required background checks will not be allowed to participate in the hunt or enter NASA Plum Brook Station to pick-up a hunter. Security forms that are not fully
completed or received less than one week prior to your assigned hunt date will not be processed and you will not be allowed access to the controlled hunt.

If the primary hunter is unable to hunt on the specified hunt day, his/her permit may be transferred to another person by completing the requested transfer information on the hunt permit for the NASA Plum Brook Controlled Deer hunt.

Please note: Any hunter who receives a transfer permit is required to select a hunt partner. Both the hunter who received the transfer permit and the hunt partner must complete and submit a NASA Glenn Deer Hunt security application to the NASA Office of Protective Services. When submitting the transfer permit, please ensure the hunt date and sector number are on the NASA Glenn Deer Hunt Security application.

Based on the results of the background check, the hunters or driver will be either allowed to participate in the hunt or denied access to NASA Plum Brook Station. Only those hunters and drivers who do not pass a background check will be directly notified by the Office of Protective Services and denied access to NASA Plum Brook Station.

The background check required for each specific hunter or driver is based on their residency. Please read carefully the information below to determine which checklist is applicable to you based on your residency in order to complete the background check requirement. All hunters and drivers should only follow and complete one of the checklists depending on their residency status:

Hunters that have been residents of the state of Ohio for the past seven consecutive years will follow the directions in the Security Checklist A, which is attached.

Hunters that have not been residents in the state of Ohio for the past seven consecutive years will follow the directions in Security Checklist B, which is attached.

SECURITY CHECKLIST A:

OHIO RESIDENTS WHO HAVE LIVED IN THE STATE FOR THE LAST SEVEN CONSECUTIVE YEARS:

☐ 1. Complete the NASA Glenn Deer Hunt Security Application on page 12 and fax or mail to: (Submission by e-mail will not be accepted)

ATTN: Sam Hensley
NASA John H. Glenn Research Center
Office of Protective Services
21000 Brookpark Road, MS 14-6
Cleveland, OH 44135
Fax: (216) 433-3562
2. The Social security number is required for completion of the background check and must be on the NASA Glenn Deer Hunt Security Application.

3. The Office of Protective Services will review the form and complete the background check. Based on the background check results, the hunter will be allowed or denied access to the hunt. Only denied hunters will be directly notified by the Office of Protective Services.

SECURITY CHECKLIST B:

NON-OHIO RESIDENTS OR OHIO RESIDENTS WHO HAVE NOT LIVED IN THE STATE OF OHIO FOR SEVEN CONSECUTIVE YEARS:

1. Hunters in this group must complete the Federal Bureau of Investigation (FBI) background check in order to access NASA Plum Brook Station. Allow 12-14 weeks for this process.

2. Only a FBI background check is acceptable – no State of Ohio checks conducted through the Attorney General’s Office.

3. A CCW or other form of criminal history background check is not accepted.

4. Criminal history check reciprocity will only be accepted from employees currently employed by the Federal government.

5. To satisfy these requirements, each hunter and driver must:

   a. Access the FBI website at https://www.fbi.gov/services/cjis/identity-history-summary-checks. Each hunter is required to complete the online form and submit a set of fingerprints to the FBI.

   b. Fingerprint cards, printed on a standard fingerprint form, may be obtained by the hunter from a local law enforcement agency that provides this service or a local commercial fingerprint service.

   c. Payment Options:

      i. Option 1: Pay by credit card using the Credit Card Payment Form from the FBI application website. https://www.fbi.gov/file-repository/idhsc-credit-card-payment-form.pdf/view

      ii. Option 2: Obtain a money order or certified check for $18 U.S. dollars made payable to the Treasury of the United States. Please be sure you sign where required.

Important note: Cash, personal checks, or business checks WILL NOT be accepted and sending any of these will delay processing of your request. Payment must be for the exact amount.

   d. Each hunter must mail the signed applicant information form, fingerprint card, and payment to:

      i. FBI CJIS Division – Summary Request
         1000 Custer Hollow Road
         Clarksburg, WV 26306

NASA Plum Brook Station – Controlled Deer Hunt Special Instructions
Page 3
e. If the FBI finds no criminal record, the hunter will receive a “no record” response from the FBI. If the hunter does have a criminal record on file, they will receive their criminal history record. Upon receiving either the criminal history record or “no record” response, the hunter must provide the results and include the hunt date and sector assignment to the NASA Glenn Office of Protective Services by fax or mail: (Submission by e-mail will not be accepted)

ATTN: Sam Hensley
NASA John H. Glenn Research Center
Office of Protective Services
21000 Brookpark Road, MS 14-6
Cleveland, OH 44135
Fax: (216) 433-3562

f. To ensure proper processing please ensure your FBI record arrives at the NASA Office of Protective Services at least one week before your hunt date. Applications received less than one week prior to your assigned hunt date will not be processed and you will not be allowed access to the controlled hunt.

g. If NASA determines that you have failed your criminal history check (background check) or if NASA fails to receive the results of your criminal history record check (background check), you will be directly notified that NASA has denied your access. Otherwise, you will not be notified.

Information for all Hunters, Regardless of Residency:

1. Background Check Results Notification: A list of approved hunters and drivers will be posted beginning two weeks prior to the specific hunt date by the NASA Office of Protective Services website at https://www.grc.nasa.gov/nasasecurity. This list will be managed by the NASA Office of Protective Services and updated periodically until the day prior to the specific hunt. If you have questions about the processing of your background check please contact Special Agent Sam Hensley at 216-433-3033. Please DO NOT call regarding your name not being on the list until you have followed and completed all instructions on either Security Checklist A or Security Checklist B.

2. Release and Indemnity Form: Each hunter is required to complete a release and indemnity form and bring with you on the day of your specific hunt. The release and indemnity form is on the last page of this packet.

3. Controlled Hunt Selection and Assignments: Hunter selection is by lottery only. There are three categories of hunters drawn (Archery hunters; Gun hunters and
Alternate hunters) for each hunt day. Those drawn will be issued a controlled hunt permit for the NASA Plum Brook controlled deer gun or archery hunts.

a. Archery Sector Hunters

i. Designated hunting areas will be assigned and designated on your controlled hunt permit. Archery sectors must hunt in pairs. Single Archery hunters will not be able to hunt NASA Plum Brook Station. Archery hunters arriving with firearms will not be permitted to hunt at NASA Plum Brook Station.

ii. Archery hunters are encouraged to use tree stands and ground blinds are also permitted. Tree stands brought to the hunt must be a make and model approved by the tree stand manufacturers association (i.e. TMA approved). Any archery hunter planning on using a tree stand must also bring and use a safety harness. All equipment should be inspected prior to use.

b. Gun Hunters

i. Designated hunting areas will be assigned and designated on your controlled hunt permit. If a gun hunter shows up without a hunt partner on their hunt day, the single hunter will have to wait to be placed with an Alternate hunter. The single hunter's name will be placed at the end of the waiting list of Alternate hunters. No hunter is permitted to hunt alone.

ii. Tree stands are not permitted for gun hunters, but ground blinds are permitted.

iii. If an unplanned event or a safety issue arises and results in the closing of a sector, NASA shall make every effort possible to notify the sector hunters and inform them of their options prior to their assigned hunt date. In the very rare instance that a sector is closed, those assigned to the closed sector will be placed at the top of the alternate list.

c. Alternate Hunters

i. The next group of names drawn is comprised of ALTERNATE hunters. Following in numerical order of draw, Alternate hunters will be utilized as follows:

1. Fill in for "no-show" Sector hunters
2. Fill hunting areas vacated by successful hunters
3. Hunt closed sections of the Station under escort

ii. Alternate hunters should come prepared to hunt both Gun and Archery sectors. Open Gun sectors will be filled before open Archery sectors. Alternate hunters will not have the opportunity to hunt both gun and archery sectors within the same hunt day.
iii. Alternate hunters are not guaranteed a chance to hunt. However, all Alternate hunters have had a chance to hunt in previous hunts. Alternate hunters who do not get a chance to hunt on their designated day may not return on a later date. The controlled hunt permit will only allow entry onto NASA Plum Brook Station on the designated day.

4. **Reminder on Hunt Permit Possession and Transfers:** Hunters are required to bring their hunt permit to the hunt with them. The controlled hunt permit for NASA Plum Brook Deer Hunts will contain the following information: a) name and address of the hunter, b) date of the hunt, c) hunt assignment, and d) designation as an Archery or Gun hunt. NASA Plum Brook Station controlled deer hunting permits are transferable to another individual; however, all transfers must be made at least two weeks prior to the respective hunt date to allow persons accepting a transferred permit to complete the background check and fingerprint process described in section 2. **Any hunter and their hunt partner who has received a transferred permit must complete the security background check as outlined in the Security Background Checks section. When submitting the transfer permit the hunt date and sector number must be submitted on the NASA Glenn Deer Hunt Security application.**

5. **Hunt Permit Sale, trade, or Exchange:** It is unlawful for any person to buy, sell, trade or barter any Division of Wildlife issued controlled hunting, fishing or trapping permit. Permits cannot be exchanged between hunters for another hunt date.

6. **Arrival Time and Location:** Selected hunters must arrive at the Scheid Road Main Gatehouse of the NASA Plum Brook Station by 6:00 a.m. Hunters arriving after the designated time entrance time of 6:00 am will not be admitted to the Station to hunt. **Please check the posted directions and addresses, attached map, and follow any and all directional road signs the day of the hunt.**

7. **Processing for Access through the Entrance Gate:** Hunters will be admitted to NASA Plum Brook Station at the NASA Plum Brook Station Scheid Road Main Gate and directed to the check-in point for processing. **At this point your state or federally-issued form of photo identification will be checked. Hunters who do not possess a state or federally issued photo identification card will not be allowed to access to NASA Plum Brook Station. Hunters who have not submitted a completed security background check to NASA will not be allowed on NASA Plum Brook Station.** All vehicles are subject to inspection upon entering this Federal facility. Persons found carrying contraband will be denied access to NASA Plum Brook Station. Contraband is defined as unauthorized weapons, ammunition, knives, explosives, illegal drugs, and alcoholic beverages. A map is available at the end of this document with addresses to obtain directions for reaching the main gate.

8. **Arrival at Hunt Control for Check-in and Transport to Hunting Areas:** After you follow the marked route from the entrance gate to Hunt Control and park your vehicle, enter the hunt control building. **DO NOT bring guns or archery equipment into the briefing building!** Leave them locked in your vehicle. You will have an opportunity to pick them up on your way to the transport vehicle, after you have gone through the check-in process and pre-hunt briefing. During the controlled hunt check-in process, each hunter will be given a blaze orange nylon vest with an identifying number on it to designate the assigned hunt area (i.e. hunt
sector). This will allow Hunt Control and hunters to know which sector they are assigned.

9. *Transport to hunt areas in the morning and pick up times in the afternoon:* Transportation within the facility will be provided by route drivers and government transport vehicles to and from assigned hunting areas. Personal vehicles may not be driven to the hunt areas. Gun hunters may hunt from legal shooting time as specified in the Ohio Hunting and Trapping Regulations to no later than 4:30 p.m. Archery Hunters may hunt from legal shooting time as specified in the Ohio Hunting and Trapping Regulations to 4:00 p.m. The Hunt Master may change these times, depending on operational, safety, and security needs for that hunt day, at which time hunters must be at their drop off point and ready for pickup after the hunt at the stated time. Pick up times may vary slightly due to daylight limitations. At the end of the hunt day, you will be dropped off at your vehicle prior to check-out. Return your vest to the route driver. Put your hunting implement in your vehicle and then go through the check-out process in the hunt control building. Do not leave your vehicle unlocked. Bring with you your controlled hunt permit for check-out at hunt control, which is required to be stamped and shown at the exit gate in order to leave the facility.

10. *Remain in assigned hunting areas unless escort is present:* Hunters will be provided with a map of their assigned hunt area. Hunters must remain within their assigned areas (i.e. sectors). Do not go into another sector or into specifically marked or closed areas. This is for your protection as well as the safety of other hunters and Station employees and facilities. If you wound a deer and believe it went down in an adjacent sector, come to the road near the drop-off point and contact a patrolling Route Driver. They will contact Hunt Control and a wildlife officer will escort you into the adjacent sector once that sector’s hunters have been notified.

11. *Bag limit and Deer Harvest:* Each hunter may take three deer per day. This may consist of 1 antlered and 2 antlerless or up to 3 antlerless deer. Please note that harvesting an antlered deer as part of this hunt counts towards the statewide bag limit of 1 antlered deer per year in Ohio. Hunters are to remain in their sector until both hunters either have harvested deer, decide to stop hunting, or hunting time has expired. Both hunters must leave their sector at the same time. When both hunters have left the sector, they will not be permitted to return. Come prepared to stay within your sector for the entire day. There will be no other hunters in your sector, so it should be safe to let a tagged deer remain there while you help your partner or continue hunting. Field dress deer at least 50 feet away from the nearest road and keep it in the shade.

12. *Route Drivers will patrol roads throughout the day:* There will be patrol vehicles active throughout the Station at all times during the hunt. A hunter aware of any injury or other emergency shall immediately go to the nearest roadway in his/her assigned hunt area and report the incident to the first patrol vehicle or Route Driver. An emergency number will be posted at Hunt Control in the morning prior to transporting hunters into the field. Dead or crippled deer, other than your own, should be reported to the Route Driver or Hunt Control.

13. *Required items to bring:* Hunters must have in their possession the following items.
a. A valid state or federally issued form of photo identification for proof of identification and age, such as a valid state photo ID (driver's license or non-driver), valid United States passport, or valid Federal Government/Military CAC or Military retiree ID card.

b. A current Ohio hunting license

c. Current Ohio deer hunting permit(s) and the controlled hunt permit for the NASA Plum Brook Station Deer Hunt

i. Special note regarding deer permits: Hunters may use either regular deer permits and/or antlerless deer permits for this hunt. Because this is a controlled hunt, the use of the antlerless deer permits will be allowed from November to February. Deer harvested during this hunt will not count against any county bag limit. Any deer taken during this hunt will not count against the state-wide bag limit of 6 deer. However, deer harvested during this controlled hunt will count against the bag limit of 6 deer that can be harvested during controlled hunts for the year in Ohio per OAC1501:31-15-11-b (6). The regular deer permit must be used when harvesting an antlered deer. If you tag an antlered deer, this will count as your buck for the year. All other deer harvested must be antlerless for the current season.

d. Your signed Release and Indemnity form

e. A knife suitable for field dressing deer and a drag rope

f. Gun hunters may only use shotguns, muzzleloaders, and straight-walled cartridges during this hunt. Archery hunters may only use compound bows, longbows, and crossbows. All alternate hunters are encouraged to bring both gun and archery equipment to maximize the chance of being placed in a sector.

g. A watch, compass or GPS unit (recommended)

h. A phone (if available).

i. Lunch (recommended) and a non-alcoholic beverage

j. Hunters should wear waterproof footgear and clothing according to the weather.

14. Food and Beverages are not Available: No items are available for purchase at NASA Plum Brook Station. You are advised to bring supplies for a full day. Alternate hunters may have to wait several hours before entering the field to hunt. Come fully prepared! Hunters MAY NOT leave the Station to purchase food, coffee, licenses, or ammunition. Any hunter leaving the Station will not be allowed to return.

15. Deer permits will not be sold at the NASA Plum Brook Station. Make sure you have all appropriate deer permits with you in hard copy prior to the hunt.

16. Other Prohibited Items: While on NASA Plum Brook Station, no hunter shall have in his/her possession alcoholic beverages, cameras, or any weapon other than an approved deer hunting implement and a knife suitable for field dressing deer.

17. Be Safe while in the Field: Guns shall not be discharged in the direction of Station buildings, facilities, across roadways, across the boundaries of assigned areas, or towards the Station perimeter fence.

18. Take Accurate and Selective Shots: Though there are plenty of deer on the Station, hunters are not guaranteed a deer. Take your time, be sure of your target,
know what is beyond your target and make sure that the deer you are shooting at is well within your range. Sight-in your hunting implement before you come to hunt. Sighting-in of hunting implements will not be allowed on the Station.

19. Tracking and Tagging: Failure to responsibly track and immediately tag each deer you shoot may result in dismissal from the hunt in addition to criminal charges. ODNR law enforcement personnel will be on duty at NASA Plum Brook Station during the hunt. All wildlife laws will be strictly enforced. All deer must be tagged in accordance with the tagging requirements in the Ohio Hunting and Trapping Regulations. **All deer are required to be checked via the automated game check and permanent tagging process prior to leaving the facility.**

20. **Be responsible and use discretion:** Please do not litter or destroy property. It is essential that all hunters do their part to make this a safe hunting program. Any injury to others or damage to property may be cause for immediate termination of the NASA Plum Brook Controlled Deer Hunts. Photos and videos are prohibited during security processing at the NASA Plum Brook Main Gate. Hunters may not take photos in hunting areas, start fires, or hunt game other than white-tailed deer.

21. **Hunter and Driver Access to the Station:** No visitors other than emergency personnel will be allowed on the Station during the hunt. Only those hunters with a valid NASA Plum Brook controlled hunt permit for that day will be admitted to the Station. Drivers will be permitted onto NASA Plum Brook Station if they have a completed background check and are on the approved entry list to pick-up hunters. It is recommended that the approved drivers who have transported the hunters to the NASA Plum Brook Station remain at hunt control. They may leave the Station during the hunt if absolutely necessary. If any driver should leave the Center during the hunt they may return to the Center via the old NASA Plum Brook Station Main Gate located at 6100 Columbus Avenue, Sandusky, OH after 2 pm to pick-up the hunters. These drivers will take the marked route to and from the old NASA Plum Brook Station Main Gate to Hunt Control as shown in the enclosed map. Drivers will need to exit in a timely manner through the same gate as they entered if they prior to 2pm.

22. **Cancellations and rescheduled hunts:** The possibility for hunt cancellation always exists. If a hunt is cancelled, hunters will be rescheduled to hunt the corresponding hunt date for the following year. If a hunt is rescheduled due to cancellation, the hunt sector assignment or gun alternate hunter assignment will be mailed to you at a later date in a letter format. This will not require the hunter to re-apply for the rescheduled hunt through the online drawing process, though hunters would still need to obtain an up-to-date background check prior to the hunt. Additionally, this would not prohibit the hunter from applying for an additional NASA Plum Brook Deer Hunt through the online drawing process. Reasons for Potential Hunt Cancellations include the following:

   a. Bad Weather: In case of inclement weather all hunters should monitor the NASA Office of Protective Services website at [https://www.grc.nasa.gov/nasasecurity/nasa-plum-brook-station-deer-hunt/](https://www.grc.nasa.gov/nasasecurity/nasa-plum-brook-station-deer-hunt/) and the Erie County Sheriff’s Office website at [https://www.eriecounty.oh.gov/popular-links/erie-county-sheriff](https://www.eriecounty.oh.gov/popular-links/erie-county-sheriff) for the most up-to-date winter weather advisories. The Erie County Sheriff’s Office utilizes standardized winter road condition advisor levels to inform the public about the general condition of roadways throughout the county.
during a winter storm. If the Erie County Sheriff’s Office issues a **Level 3**
winter road condition advisory, **Erie County roadways to include**
**NASA Plum Brook Station are closed to all non-emergency travel**
due to extremely hazardous conditions. Hunts will then be cancelled.

b. U.S. Government Budgetary Shutdown: all hunters should monitor the
NASA Office of Protective Services website at
[https://www.grc.nasa.gov/nasasecurity/nasa-plum-brook-station-deer-hunt/](https://www.grc.nasa.gov/nasasecurity/nasa-plum-brook-station-deer-hunt/). If a Government Budgetary Shutdown is on-going during any of
the hunt dates a decision to proceed with or cancel the NASA Plum
Brook Deer Hunt will be made by NASA officials no later than midnight
on the Monday prior to the Saturday hunt date.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

PLUM BROOK STATION CONTROLLED DEER HUNT

RELEASE AND INDEMNITY AGREEMENT

In consideration of a permit having been granted to hunt on the National Aeronautics and Space Administration (NASA), Plum Brook Station, located in Erie County, Ohio, the undersigned permittee, for himself/herself, his/her heirs and assigns, executors, and administrators, hereby releases, waives, and forever discharges the United States of America, including but not limited to NASA, and the U.S. Department of Agriculture/Animal and Plant Health Inspection Service/Wildlife Services (USDA/APHIS/WS), and the Department of the Army (DOA), and also the State of Ohio and its Department of Natural Resources (ODNR), and all of their officers, agents, servants, and employees from all claims, demands, and causes of action for damage to property, or injury, or death, and from all liability for damages of whatsoever kind, nature, or description which may arise out of or are in any way connected with the privileges granted by the permit referred to herein above.

The undersigned also agrees to indemnify and to hold harmless the United States of America including but not limited to NASA, and the USDA/APHIS/WS, and the DOA, and the State of Ohio and the ODNR and all their officers, agents, servants, and employees against all claims, demands, action, and cause of action for damage to property, or injury, or death, arising in like manner as mentioned above with respect to his/her spouse, children, and wards, who might share the privilege granted by said permit, as well as to his/her fellow hunters in the field at Plum Brook Station who might be injured in any way out of the undersigned permittee’s conduct arising from or related to his/her deer hunt at Plum Brook Station.
