COPY OF THE LETTER I SENT
WRIGHT ON YOUR HYDROGEN
HISTORY - I THINK YOU
CAPTURED BOTH THE FACT
AND THE SITUATION IN
YOUR STUDY AND I ENJOYED
READING IT. IT WAS
ALMOST LIKE RELIVING IT.

LET ME KNOW WHAT
HAPPENS AND IF I CAN
HELP YOU —

SINCERELY
AS

January 15, 1976

Mr. Monte D. Wright
Director of History Office
NASA
Washington, DC 20546

Dear Mr. Wright:

I have reviewed Mr. Sloop's history of liquid hydrogen and found it to be an engrossing and accurate account of historical developments leading to the use of liquid hydrogen in the Appollo mission. It is also the only accurate existing history of propulsion and vehicle developments in the early years of NASA.

I enthusiastically endorse the publication of this history which has been prepared by John Sloop and suggest that he be commended for his dedication and diligence in searching out the facts and presenting them in such an interesting way.

The quotes attributed to me on pages 634 and 636 of the manuscript are approved for release. I have not attempted any detail editing of the document but I believe the essential activities in which I participated are accurately portrayed.

Sincerely,

AS/cl
